

Repsol & NCC

Repsol Healthcare® comprises of high quality polyolefins for healthcare applications, medical devices, as well as pharmaceutical packaging, adhering to all necessary regulatory and compliance standards. Repsol Healthcare® polyolefins are distributed on the island of Ireland by NCC Medical & Healthcare Polymer Solutions, a division of National Chemical Co. Ltd.

Repsol Overview

Repsol Healthcare® polymers are in compliance with:

- ISO 10993-4, -5, -10, -11
- USP 88 Class VI
- USP 87 USP Cytotoxicity (Elution Test)
- ISO 9001:2015 Pharmacopoeia (All petrochemical plants are compliant to the current ISO 9001:2015 standard.
- ISO 45001:2018 Occupational Health and Safety Management System. All petrochemical plants are compliant to the current ISO
- Producing and selling polyolefins for over 40 years to the highest standards. Three integrated production facilities on the Iberian Peninsula.

Repsol Healthcare® grades are DMF listed. For more detailed information on DMF listing, European Pharmacopoeia (Ph Eur.) and United States Pharmacopoeia (USP), Repsol's Technical Service & Development Department are on hand to provide support.

Repsol Healthcare® Product Range and Typical Applications

- Polypropylene Homopolymer HPP - Syringes, inhalers, medical equipment, closures, trays, bags
- Polypropylene Random Copolymer HPR - Syringes, inhalers, medical equipment, closures, trays, bags
- High Density Polyethylene HHD - Bottles, containers
- Low Density Polyethylene HLD - BFS, blister packs
- EVA Copolymer HVA - IV bags, tubing

NCC - Your Technical Partner in Medical Device & Healthcare Development

NCC provides a comprehensive range of polymers and additive materials for Medical Device and Healthcare sectors, assisting customers to design, develop, validate as well as manufacture.

NCC has experience of working in all polymer processing sectors, including injection moulding, extrusion and blow moulding. Working in long term partnership with world class manufacturers such as Repsol, Arkema, Franplast, Resilia, GTP and 5N.

Our offering for the Medical Device and Healthcare sectors include:

- Unparalleled customer service and technical support to the highest industry standards
- Support and facilitation of product development and speedy validation using our global sourcing expertise
- R&D Support including material selection and process recommendations
- Management of supply risk, guarantee of supply, change control and logistic support. Including batch selection and strategic stockholding
- Local material stock holding and short delivery times

- Partnering with NCC you can avail of a wide range of polymers and materials from the world's leading suppliers
- Our sister company IPC, Innovative Polymer Compounds, based in Kilbeggan, Co. Westmeath, is the ideal partner for your Healthcare polymer compounding requirements

About NCC

Founded in 1969, NCC is a leading raw material and sourcing specialist. Supplying a comprehensive range of materials and ingredients to the medical device, pharmaceutical, food and industrial sectors. With over 50 years of experience, NCC's excellent track record and in-house experts ensure that clients receive consistently compliant products, solutions and services, that have full supply chain traceability meeting the highest global standards.

Certified to ISO 9001:2015, Repak and the Responsible Care Programs including Good Trade and Distribution Practice (GTDP). NCC is an SQAS assessed company and a regular recipient of industry awards including being a Deloitte Best Managed Company since 2014.
