# NCC Pharma Services

## Your partner in the development and production of pharmaceuticals

With over **50 years of experience**, NCC Pharma Services has unrivaled expertise with the procurement and delivery of raw materials. This expertise and experience enables us to guide our customers with their sourcing requirements, in particular when it comes to the development of drug substances and medicines. From building blocks for API synthesis to coatings for tablets, we can help your organisation simplify and strengthen your supply chain.

NCC Pharma Services works with some of the largest global pharmaceutical companies, providing efficiencies and solutions that solve our customer operational supply chain challenges.

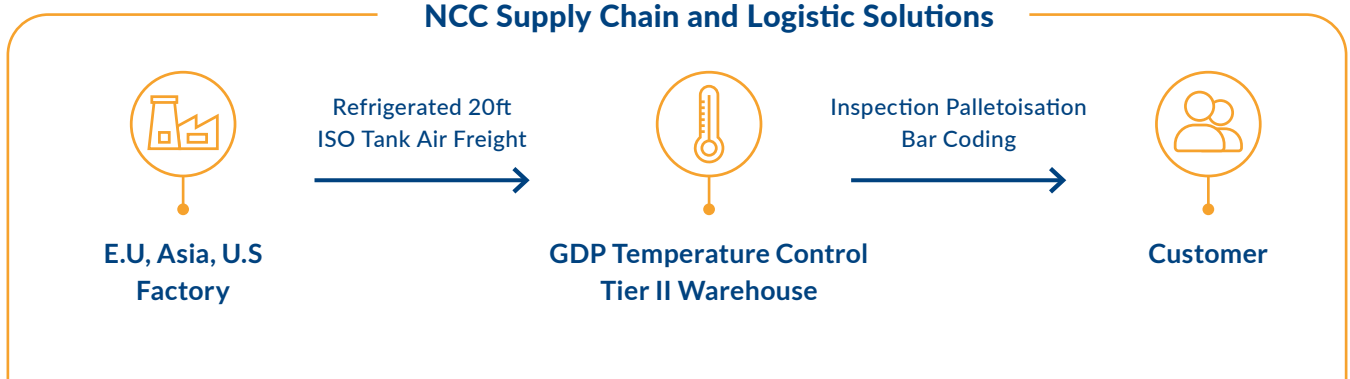

### NCC – From preclinical to commercialised

### Our service offering includes:

- **NCC Customer Excellence Managers** – Liaising between multiple vendor contacts and our customers.
- **Dedicated Sourcing** – In-depth market knowledge and technical expertise applied to manufacturer identification and authentication, patent searches, route of synthesis analysis, regulatory checks and due diligence.
- **Internal Quality & Compliance Team** – Maintaining the highest industry standards in quality and compliance. Committed to the Guiding Principles of Responsible Care® and ISO9001:2015 certified.
- **Committed Supply Chain Management Team** – Overcoming global difficulties of moving product. From supply chain risk evaluation right through to logistics support.
- **Bespoke services** – Matching purchase specifications, custom labelling, packaging and delivery requirements to exact customer needs.
- **On-site inspections** – Meetings in producer home country and visits to sites of manufacture conducted by experienced personnel.
- **REACH** – Know-how in the application of REACH and experienced in substance registration, CLP and SDS requirements.
- **Global reach** – Accessing European, Asian and American manufacturers via international personnel, trade show participation and our PlusChem alliance.
